

LAYOUT

FOCUS

If clicking on item in one section, can grey out other sections
to create foreground

Column sightlines of thirds throughout

Each piece of information can quickly be linked to or searching category

Title: World Hunger
Author: Angeline Leung 33114447

Date: 15/9/2014

Sheet: #2

Task: F173179 A2

OPERATION

filter slider to show countries within that specific range

selecting a west category to show variable

Energy Sufficient Nutrition Adequate Healthy

compressed view either by toggle OR by scrolling

Expanded view

DISCUSSIONS

PLUS

+ scrolling vertical layout is easy to understand and navigate

+ items can be easily centered/aligned

+ less chance for clutter: each new item goes its own line

MINUS

- info at bottom of page has less visual hierarchy so need to decide what to focus on

- text at the start can take up a lot of space but is needed for context

INTERESTING

* whitespace may be present throughout excessively. Possible to add more text when needed

LAYOUT

World Hunger

Exploration of percentage of people not being able to afford meals

Text explaining correlation b/w GDP and % of people that can not afford meals at an energy sufficient level + Annotations

More Affordability	Energy sufficiency	Nutrition Adequacy	Health

Title : World Hunger

Author : Angeline Leung 33114447

Date : 15/9/24

sheet : # 3

Task : FIT317A A2

zoom into world map → see countries closer in a particular region - useful for viewing countries that don't have a lot of landmass

TAB 01 TAB 02 TAB 03

Selecting a specific tab that changes the lower half section. This can be supported w/ different colour schemes ie background

search bar to input country and show that country's food category prices

PLUS

+ two clear sections of the website to show the difference b/w interconnected topics

+ good related functionality w/ tabs if connects works between idioms and conditions

LAYOUT

FOCUS

scroll through website that has defined 'snapshots' where each view

SNAPSHOT #1 acts as

a dashboard

SNAPSHOT #2

SNAPSHOT #3

more detail/info when scrolling

Title: World Hunger

Author: Angelina Leung 3311447

Date: 15/9/24

Sheet: #4

Task: FIT3179 A2

OPERATION

FIXED

0 0 0 0 0 0 0 0
0 0 0 0 0 0 0 0
0 0 0 0 0 0 0 0

SCROLLING

0 0 0 0 0 0 0
0 0 0 0 0 0 0
0 0 0 0 0 0 0
0 0 0 0 0 0 0
0 0 0 0 0 0 0
0 0 0 0 0 0 0

Data vis can be fixed as text + annotation

are scaled through.

This reduce cognitive load. As only one annotation is viewed at a time

Selection of person on scanner will filter what is aggregated in the bar chart

DISCUSSIONS

PLUS

+ can limit how much text is seen in each 'desktop' sized view reducing cognitive load

+ each vis will be large so data can be seen easily

MINUS

- may take a while to link up operations in interactive display

INTERESTING

radial concern charts may not be appropriate for this data

LAYOUT

FOCUS

Numbers → stand out to draw attention
Heading → be viewed next
Text to be read last

Title : World Hunger
Author : Angelina Leung 38114447

Date : 15/9/24

sheet : #15

Task : P173179 A2

OPERATION

DISCUSSIONS

PLUS

combines elements from previous designs

MINUS

Information gets more dense as you scroll down

INTERESTING

Impactful text on different positions to create hierarchy of text
